Experience

Findsome & Winmore - *Web Developer*   **2014 - Present**

As a web developer I collaborate with designers and other developers on internal and client based websites and applications using custom Wordpress themes and plugins, Node, Rails, Angular, and React.

The Storage Group - *Developer / Project Manager*   **June 2012 - June 2014**

As a developer and Web Project manager I scoped and planned innovative Self-Storage focused projects and products in collaboration with the Technology and Marketing directors. I also managed a team of developers and designers to execute client projects.
